B.Tech Artificial Intelligence

ai24btech11032@iith.ac.in

+919120927950

Degree	University/Institute	Year	CGPA/Marks(%)
B.Tech Artificial Intelligence	IIT Hyderabad	2028	5.85
XII (CBSE)	Jawahar Navodaya Vidyalayas	2022	78.40%
X (CBSE)	Jawahar Navodaya Vidyalayas	2020	74.40%

SKILLS

.Programming Language: Python, C++, C, SQL,HTML, CSS, JavaScript
.Concept and Tecnologies: Database Management Systems (DBMS)
.Tools: Git, GitHub, Google Colab, Jupyter Notebook, VS Code, Linux
.Libraries: NumPy, Pandas, Matplotlib, OpenCV, Scikit-learn, PyTorch
.Soft Skills: Problem Solving,Teamwork,Adaptability, Creative

RELEVANT COURSES

.Computer Science: Introduction to Programming,Data Structures & Algorithms
.Mathematics: Probability & Statistics, Calculus, Discrete Mathematics, Optimization
.AI/ML: Machine Learning, Deep Learning

PROJECTS

Machine Learning & Deep Learning — Model Implementation & Evaluation | Python, NumPy, PyTorch, TensorFlow/Keras

- Implemented and evaluated **KNN, Naive Bayes, CNN, RNN, LSTM, and Transformer models** for image and text classification.
- Built core deep-learning components from scratch, including **CNN operations, RNN/LSTM, positional encoding, and multi-head self-attention**.
- Performed **sentiment analysis and long-context sequence modeling** using IMDb and WikiText-2 datasets.

Shape Classification using CNN | Python, PyTorch, Torchvision, Scikit-learn

- Developed a custom **CNN with residual blocks** for binary image classification using PyTorch.
- Implemented **data augmentation, Batch Normalization, Dropout, and Adaptive Average Pooling** to improve model generalization.
- Trained the model using **Adam optimizer and Cosine Annealing learning-rate scheduling**, with automatic CUDA/GPU support.
- Evaluated model performance using **Validation Accuracy and F1 Score** and generated predictions for the test dataset.

EXTRACURRICULAR

. Built AI/ML projects beyond academic coursework to strengthen practical skills in Computer Vision, Deep Learning, and Natural Language Processing.
.Regularly practice Data Structures & Algorithms and explore emerging AI technologies through self-learning and hands-on implementation.
.Create AI-generated educational animated videos for YouTube, gaining experience in AI tools, content creation, and video editing.
